THE LAKE MICHIGAN FERRY.

At the meeting held at the Board of Trade Rooms yesterday morning, Mr. Edwards, from the Committee appointed on Tuesday, reported that no conference had been held with many of our business men, and with the railroad companies, with reference to the subject matter. The Milwaukee &amp; Mississippi, the La Crosse &amp; Milwaukee, and the Milwaukee &amp; Horicon Rail Road Companies are ready to enter into favorable arrangements for company tickets.

It is proposed to re-open the books of subscription to the Lake Michigan Transportation Co., on which \$40,000 was subscribed a year ago, the subscribers to that stock generally being willing to come into the arrangement.

The Committee was authorized to go forward with the work of obtaining the subscription asked for in our city.

Capt. Howard, of Detroit, who had been inspecting our new Straight Cut Harbor, expressed himself as much pleased with the prospect of obtaining the best possible accommodations for the steam ferry. He stated that it was intended to build steamers of great speed, abundant accommodations, and such power as to be able to make their trips regularly throughout the year.

The harbor at Grand Haven furnishes now over eleven feet of water at the entrance, and deep water inside.

The Defeated Slave Democracy in the Organized and Non-Organized Slave States.

We were yesterday favored by Mr. Storrs, late clerk of the steamer Ocean Wave, with St. Paul papers of the evening of the 14th, and a despatch, to the latest moment, for the Associated press. The despatch reads as follows:

St. Paul, July 14th.

The Constitutional Convention, recognized by 59 Republican members, has been in session at the Capitol since yesterday morning.

The Democrats (44 members) have organized another Convention in the Council chamber, with Hon. H. Sibley as President, Secretary Chase having previously appeared at the Convention Hall, and demanded the room for the use of the Constitutional Convention, which demand was answered by the President informing him that the Convention was already in session there, and refusing to deliver it up to any other body. There are now two Conventions here—a majority and a minority—each drafting a Constitution.

The Republicans will continue in session night and day, in order to retain possession of the Hall.

The following accounts, which we take from the papers of the 14th, will explain the above dispatch:

From the Daily Times.

Yesterday was a "deadly" in the political history of Milwaukee. Here is a brief history of it. At seven o'clock on Sunday evening the Democratic members of the Convention assembled in the Council Chamber at the Capitol, in private caucus—adjourned at eleven o'clock, and then adjourned again at the Capital, and cleared the decks for action. Not

Crops of 1857.

The Cincinnati Gazette makes up an estimate of the wheat and corn crop of nine of the western and north-western states, which it says are based upon sound data in relation to increase of population and ratios of production, and on the assumption that the crop of this year will be a full average.

The figures are as follows:

WHEAT Bushels.

Ohio ..... 20,000,000

Indiana ..... 10,000,000

Illinois ..... 16,000,000

Kentucky ..... 5,000,000

Tennessee ..... 2,000,000

Wisconsin ..... 6,000,000

Missouri ..... 5,000,000

Iowa ..... 2,000,000

Aggregate ..... 73,000,000

CORN Bushels.

Ohio ..... 25,000,000

Indiana ..... 55,000,000

Illinois ..... 73,000,000

Kentucky ..... 66,000,000

Tennessee ..... 60,000,000

Wisconsin ..... 8,000,000

Missouri ..... 55,000,000

Iowa ..... 20,000,000

Total ..... 442,000,000

The Crops are generally quite accurate in its statistics, but it will have to adopt some new basis of calculation for Wisconsin, relative to the wheat crop in our State, if we are to do so to all appearances how we may safely do to calculate on a considerable increase in this year's crop over the last one. A few words will make this clear enough.

We shall have exported from Milwaukee alone, from April 1st, 1856, to August 1st, 1857, not less than \$4,320,000 bushels of wheat, (reducing four to wheat,) since the ports of Keokuk, Iowa, Pt. Washington, Sheboygan, Milwaukee, and Green Bay, in all this State, the shipments will have reached not less than \$3,600,000 bushels certainly, and we think that we estimate the amount too low. Besides this, a good deal of wheat is shipped by steamers up and down the Mississippi from the countries on our western border, not less, probably, than \$300,000 bushels.

Now, to these figures we must add the consumption in the State, and we find great difficulty in making a satisfactory estimate of it. The average population of the State has been not less than 700,000. Probably a low estimate for the consumption of wheat would be at least 2,500,000. Adopting that figure, we should have the following aggregate for 1866;

bus.

Shipped from Milwaukee, 4,320,000

other ports, 3,600,000

Consumed, 2,500,000

Total, 10,630,000

An increase of 20 per cent, which we shall probably realize this year on the above amount, would make the wheat crop of 1857 for our State 12,780,000 bushels instead of 5,000,000, as the Gazette estimates it. We think it will exceed this amount.

The "Ping Ugly" Libel on Milwaukee.

Capt. Barny, the original informer of the New York paper, having frankly admitted that he was misinformed to the alleged "Ping Ugly" Libelation in this city on the Fourth of July, the New York paper takes the responsibility and proposes to "prove up" the story. It says:

We are in possession of several facts—well authenticated facts, which we can weave in a narrative of the case, unless some witness prevents us from doing so, giving several details.

If the New is in possession of any facts, it will endeavor to sustain its "Ping Ugly" libel upon our city, we invite it to make them public, and thus, if it can, save its own credit.
